PROFILE

Full Stack Developer with hands-on experience building scalable web applications using React and Node.js. Skilled in designing RESTful APIs, integrating third-party services, and working with database-driven backends. Comfortable owning features end-to-end — from UI to server to deployment — with a focus on performance, clean code, and shipping reliable products in fast-moving teams.

EDUCATION

Bachelor of Engineering in Computer Science & Engineering –
KCT 2023 – Expected 2027

EXPERIENCE

WEB DEVELOPER INTERN – REACT KCT

Nov 2025 – April 2026

Built and maintained react.kct.ac.in and idealab.kct.ac.in REACT KCT. Developed idealab as a full-stack application with Express, React, and MySQL, and deployed it on a Hostinger VPS with custom subdomain configuration for institutional access.

PROJECTS

REACT – ([link](#))

- Developed and deployed **react.kct.ac.in**, a React-based frontend learning and showcase platform for Kumaraguru College of Technology.
- Implemented modern frontend development concepts including reusable components, responsive design, and optimized state management for scalable UI development.
- Deployed the application on a Hostinger VPS with custom subdomain configuration, enabling seamless institutional access in a live production environment.

Technologies Used: React.js, Node.js, MySQL2, DNS Management, Google Sheets integration

KCT Classroom Seating Arrangement System:

- Developed a React-based web application to automate classroom **exam seating** arrangements, reducing manual effort and errors.
- Optimized frontend performance through improved component **reusability** and efficient **state management**, reducing manual seating allocation time from hours to minutes while achieving **97%** accuracy in correct seating order.

Technologies Used: React.js, Tailwind CSS, Node.js, MySQL2.

KCT NCC Website Development – ([link](#))

- Built ncc.kumaraguru.in from scratch using HTML and CSS, designing and developing a structured, responsive website for Kumaraguru College of Technology's NCC unit. Focused on clean UI layout, proper content organization, and optimized styling to ensure accessibility and smooth user experience across devices.

Technologies Used: HTML, Tailwind css, Vercel.

SKILLS

Frontend: HTML, CSS, JavaScript, **React.js**, Tailwind CSS

Backend: **Node.js**

Database: **MySQL**, MongoDB

APIs: REST

Tools: Git, GitHub, Figma, Firebase, VS code, **Vite**

CERTIFICATIONS

- TECHNOLOGY FOUNDATION – Expertisor Academy, Aug 2025
- REACT.JS - Internshala Trainings, Dec 2024
- HTML AND CSS in Depth - Meta, June 2024
